NEW VISTAS

Published by
The Yearbook Staff
of the
Ninety-second Graduating Class
of
Findlay High School
Findlay, Ohio

Foreword . . .

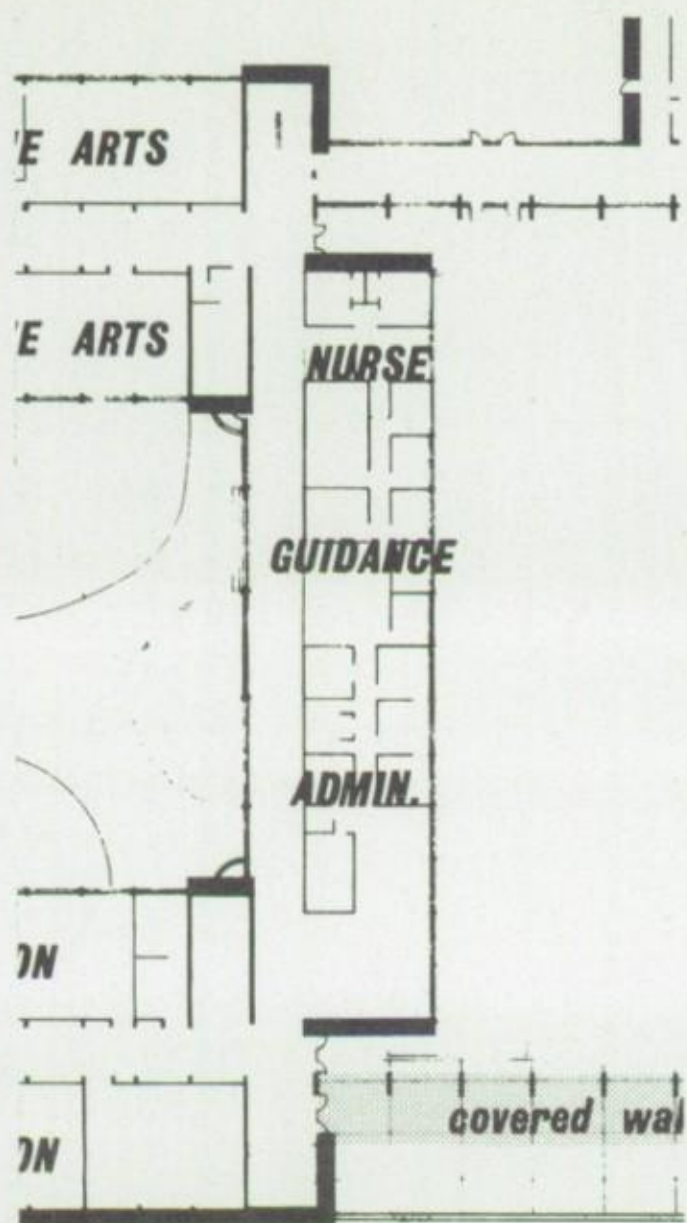

We, the senior class of 1964, have seen several changes effected at Findlay High School that have altered its approach to the realm of education. Through these changes, new and wider horizons have opened to us, both for the classroom and for our future; and the opportunity for physical, mental, and spiritual growth has reached a new peak.

Despite these memorable changes, certain things that know no change have been instilled in us: the quest for truth and the reverence of wisdom. We do not gain these things so much from our classroom work, as we do from our personal evaluation of the ambitions and achievements of those who went before us. We may see the real meaning of our own achievements and goals, and thus we may strengthen our stride toward maturity.

It is our sincere hope that our accomplishments at Findlay High School and the goals it has helped us set will serve to make the foundation more firm for those who follow us that they will be ready for the even greater changes that they must face.

*A Trojan Expression
Of
Gratitude
To
The Citizens Of Findlay*

As students develop, so develops our community. As students mature, so does our community rise to the call of progress.

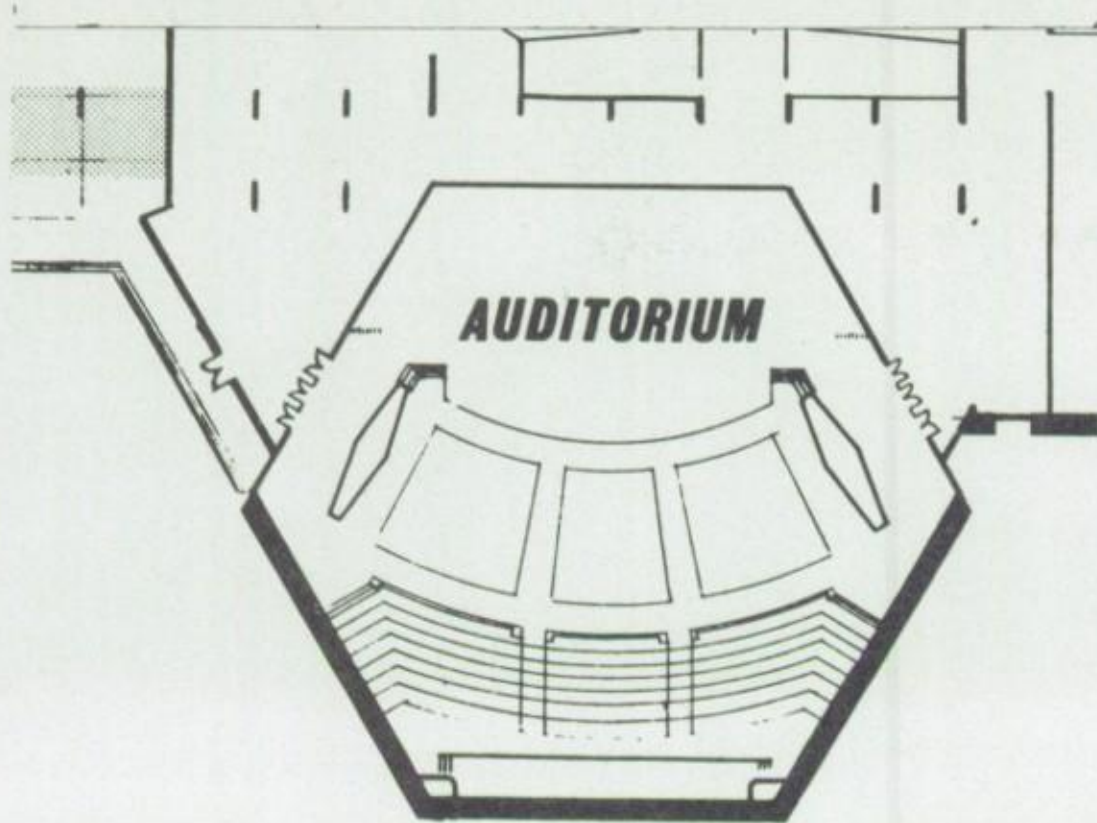

With the completion of the new senior high school building, the citizens of Findlay have met progress face to face. They have re-established their faith in the youth of a growing community and have re-affirmed their belief that education is the key to progress.

For this tangible evidence of faith and for the many educational facilities now open to them, our students extend to the citizens of Findlay their sincere expression of gratitude.

**HOW FAR DOES MARATHON
GO TO PLEASE YOU ? ? ? ? ?**

We go around the world. Right now, Marathon is operating in such faraway places as Libya, Australia, Spain, Alaska, and Ireland. We search for oil. We find it. We explore its possibilities at our modern research center and three testing laboratories in this country. We refine it into a multitude of fine petroleum products at our four major refineries, and transport it through more than 3,700 miles of pipeline. We go farther to please you at the pump, too. For we know that your impression of us depends on the service you receive at the Marathon station...around the corner. Have you tried Super-M gasoline, lately? Please do. We'd like to put our size at your service.

Around the world . . . Around the corner
